Directions: check all that apply then total below

- I prefer a small school setting that offers individualized student attention
- I insist that the school be fully accredited offering a diploma and not a GED
- I must have qualified, dedicated teachers, committed to student success
- Ideally, I prefer fewer credits required for graduating early if possible
- Counseling, tutoring, and mentoring should be available
- I want the potential to earn dual credit at a community college
- A self-paced math program is important
- Block scheduling is important so I can cover more material each quarter
- A four-day school week with a fifth day of work-study sounds good to me
- I want the to get real-world experience through a work-study program
- The school must be centrally located and convenient to public transportation
